## FUND MANAGER UPDATE

- The Sundaram Small Cap trades at par to Large Caps valuation. The Sundaram Small Cap fund is valued more attractively than the Small Cap Index, avoiding overvalued sectors like defence, railways, EMS, and Power. This strategic position allows the Small Cap Fund to perform well during downturns, appealing to investors concerned about market volatility but interested in small-cap investments.
- Small Caps can continue to outperform as long as they deliver superior earnings growth vs Large Caps. As small cap earnings has been muted for Q2, the short term outperformance seems capped.
- The portfolio includes multi baggers like Safari in luggage, premium product companies like Radico Khaitan, since IPO keeping Affle which is again a high growth stock. Navin fluorine, although beaten down but has opportunity to grow.
- We are overweight in Financial, especially in SFB & NBFCs and IT Services and neutral in Industrial. We are allocating cautiously to Consumer Discretionary, Industrials, Auto Ancillary keeping an eye on valuations. The fund reduced exposure from IT, FMCG due to over valuations.
